## SUMMARY

---

Senior full-stack developer with 18+ years of experience building custom WordPress solutions and web applications. Specializing in custom theme development, Gutenberg blocks (React/ACF PRO), headless CMS architectures, and full-stack applications using Vue.js, React, and Firebase. Proven track record working with international clients across the US, UK, and EU. Currently expanding into AI-assisted development workflows and AI agent integration.

## TECHNICAL SKILLS

---

**Core:** PHP, JavaScript (ES6+), WordPress, React, Vue.js, Firebase, Node.js

**WordPress:** Custom Themes, Gutenberg Blocks, ACF PRO, WooCommerce, Multisite, REST API, Headless CMS

**Frontend:** React, Vue.js, GSAP, Tailwind CSS, SCSS, Bootstrap, Vite

**Backend:** PHP, Laravel, Node.js, Firebase (Auth, Firestore, Functions), MySQL, REST APIs

**Other:** Git, Linux, Performance Optimization, SEO, Accessibility (WCAG), AI Agents & Workflows

## EXPERIENCE

---

### Senior Software Developer — Self-Employed / Freelance

Remote (Barcelona, Spain) | August 2018 – Present

- Delivered 50+ custom WordPress projects for international clients including Integrated Mobile Marketing (USA), The TEFL Academy (UK), Mobile5 (UK), INCREO (Norway), and PerformaCode (USA).
- Built custom Gutenberg blocks using React and ACF PRO, headless WordPress setups, and complex multisite architectures with WooCommerce integration.
- Developed VILO CRM — a full-stack web application for a law firm using Vue.js + Firebase, featuring Kanban task management, real-time chat, document workflows, and invoicing.
- Created interactive data visualization platform (Community Trust Index) with Excel-to-web data pipeline and dynamic map/statistics updates.
- Currently integrating AI-assisted workflows and developing custom AI agents to streamline development processes and enhance client solutions.

### Full-Stack Developer — netzstrategen GmbH

Barcelona, Spain | October 2017 – July 2018

- Developed custom themes and functionality for WordPress and Drupal projects within agency environment.
- Provided troubleshooting, maintenance, and performance optimization for client websites.

### Full-Stack Developer — Freelance

Warsaw, Poland | October 2010 – September 2017

- Delivered web development services as outsource developer for agencies including American Eagle, Hypermedia Isobar, Sparrow Design, and Polish Bank Union.

- Built custom WordPress themes from scratch, WooCommerce stores, and e-commerce solutions on Prestashop and Magento platforms.
- Transitioned from Flash/ActionScript and Joomla to WordPress ecosystem, developing expertise in custom theme development.

## Web Developer — Freelance

Warsaw, Poland | 2007 – 2010

- Started professional web development career during university, building websites using Flash/ActionScript, PHP, and Joomla CMS.
- Created e-commerce solutions using HikaShop and other Joomla components for local and international clients.
